DESCRIPTION

High Quality Material: TECNID Heat Shrink Tubing Kit is made of high quality EVA material, thick and durable, which provides sturdy protection for your wires and cables. It is fireproof, waterproof and voltage resistant, making it a safe and reliable choice for your electrical projects. The material is also eco-friendly and non-toxic, ensuring that it is safe for both you and the environment. **Secure Fit:** The heat shrink tubing has a 1/2 shrink ratio, allowing it to fit tightly and securely around any shaped wire. The tight fit ensures that the tubing will not easily break or deform, providing long-lasting protection for your wires and cables. The variety of sizes ensures that you can find the perfect fit for any wire or cable. **Versatile Application:** TECNID heat shrink tubing kit can be used for various electrical needs, including insulation, bundling, color coding, mechanical protection and repairs. Effectively extend the life of your wires and cables, ensuring they remain protected and functional for years to come. **Convenient Packaging:** The kit includes 100 pieces of black heat shrink tubing in 6 different sizes, all packed in a sturdy plastic box for easy carrying and storage. Convenient packaging allows you to organize the tubing by size, making it easy to find the one you need. **Easy to Use:** The heat shrink tubing features an easy-to-use design that allows for quick and easy installation. Simply slide the tubing over the wire or cable and heat it with a heat gun or lighter to shrink it to the desired size. No special tools or skills are required, making it suitable for both professionals and DIY enthusiasts.
